

PLAQUEMINES PARISH NEWS

Dear Residents & Businesses,

We are monitoring the levees due to the anticipated high river stages. Because of the amount of water up against the levee we are watching it on a daily basis. If you notice any issues along the levees please call the Parish's 911.

No one should be driving any motorized vehicles on the levee. The Sheriff's Office will be monitoring all unauthorized vehicle traffic on the levee.

Also, the Corps of Engineers asked that no one dig within 1,500 feet of the River levees. We do not expect any issues, but want to stay on the proactive side.

Sincerely,

Billy Nungesser

Parish President
